

## **Moneyfacts Key Facts**

Moneyfacts Group has been providing financial product data to the UK financial services industry for over 30 years.

With an unprecedented focus on accuracy, Moneyfacts data updates throughout the day, recording up to 450 separate pieces of information per product in its extensive databases. Dedicated research teams constantly monitor all of the thousands of mortgage, savings, credit card, personal loans, business banking, life, pensions and investment products from more than 550 provider brands.

Moneyfacts data and insight is used by virtually every bank and building society in the UK and its data services power a number of the UK's leading financial comparison websites. Its data is also used by the Bank of England, the Building Societies Association, Financial Conduct Authority, Financial Ombudsman Service, HM Treasury, Prudential Regulatory Authority and UK Finance.

## **More about Moneyfacts Group plc**

### **Moneyfacts Analysers**

The Moneyfacts Analysers, a set of product-specific online systems, include business current accounts, buy-to-let mortgages, commercial finance, credit cards, current accounts, equity release, loans, residential mortgages and savings, plus key economic statistics.

The Analysers are used by key players in the industry, including financial bodies, to monitor and examine the UK financial markets.

They are often used alongside Moneyfacts Market Intelligence Reports and Data Feeds, which are bespoke reports containing comprehensive financial product information for comparison and analysis, providing an instant means of monitoring the market.

### **Moneyfacts Group Awards**

Moneyfacts hosts four industry awards, which establish the best products in their respective fields. These are the Moneyfacts Awards, Business Moneyfacts Awards, Investment Life and Pensions Moneyfacts Awards and Moneyfacts Consumer Awards. Presented annually, they award product excellence and outstanding service, and cover products from across the range of financial services.

In conjunction with the Moneyfacts Consumer Awards, Moneyfacts has one of the largest national consumer surveys, getting the nation's thoughts and opinions on hundreds of personal finance products.

## **Moneyfacts.co.uk price comparison website**

Moneyfacts.co.uk offers a price and product comparison service to UK consumers. Launched in 2000, it helps consumers compare thousands of financial products, including credit cards, savings, mortgages and many more.

The site provides informative guides and covers the latest consumer finance news, as well as offering a weekly newsletter.

## **Moneyfacts Annual Star Ratings**

The Moneyfacts Star Ratings highlight the best quality financial products available based on an assessment of all their features and criteria. Moneyfacts Star Ratings logos act as an independent and impartial badge of approval, helping consumers identify products with exceptional features so they can make important decisions with confidence.

The growing range of products currently assessed includes:

- Personal Current Accounts
- Personal Credit and Charge Cards
- Business Current Accounts
- Business Credit Cards
- SIPP and SSAS
- Ethical Fund
- Equity Release
- Critical Illness
- Home Insurance
- Home Emergency Cover
- Car Insurance
- Commercial Vehicle Insurance
- Travel Insurance
- Pet Insurance
- Private Medical Insurance
- Unsecured Personal Loans

## **Moneyfacts Treasury Reports**

With data going back over 10 years, the Moneyfacts Treasury Reports combine past and present market data to provide an in-depth analysis of the credit card, mortgage and savings markets. All reports include commentary, graphs and tables highlighting key trends.

## **Subscription magazines**

Moneyfacts Group publishes three monthly magazines containing essential information on all the current financial products in the UK.

Moneyfacts covers all personal finance products offered by the UK's banks, building societies and credit lenders; from savings, mortgages and investments, to loans, cards, personal current accounts and offshore accounts.

Investment Life & Pensions Moneyfacts is an essential research and sales aid for the professional adviser for investment, retirement, and protection products. It contains the most up-to-date fund performance figures of any trade monthly, covering more than 9,000 funds.

Business Moneyfacts is a comprehensive guide to business finance products, providing details of business accounts, business loans, business cards, factoring, invoice discounting, leasing, asset finance, bridging finance, buy-to-let and commercial mortgages.

### **Industry expertise and commentary**

Moneyfacts is in contact with all key national titles and other media, and regularly provides data and insight on financial products and markets to them, as well as Best Buy charts.

With access to decades of financial product data, financial institutions look to Moneyfacts' financial experts for its data and insight services.
