

# Moneyfacts® Awards 2022

## Categories and Methodology

### PROVIDER CATEGORIES

For all product-specific categories, detailed weekly analysis of the data provided to us and displayed in Moneyfacts Magazine or on any of the Moneyfacts online systems between 1 January 2021 and 31 December 2021 is undertaken by our well-qualified research team.

### SERVICE CATEGORIES

For service categories, the intermediary community is given the chance to complete testimonials for their preferred providers via online forms, which are open from 4 January 2022 to 11 February 2022. Those responding are asked to consider all aspects of the service offered by providers between 1 January 2021 and 31 December 2021. An internal judging panel then assesses the results and decides the final positions of finalists in the innovation category.

### BROKER CATEGORIES

For broker categories, we invite entries/nominations to be submitted between 4 January 2022 to 11 February 2022. Once the shortlists are announced in March, the finalists will have the opportunity to invite their own contacts to submit feedback on their service via an online survey. In combination with an internal judging panel, this feedback decides the final positions for these categories.
